TROPICAL ODDITIES
TROPICAL SEEDS

New Price list effective Sept. 15, 1960.

This list is for those who like tropical plants and want nice specimens of rare plants for the house in winter and outdoors in summer. This enterprise is operated by people long familiar with tropical plants from around the world.

It is difficult to publish a permanent list of rare orchids and other plants because new things are always being discovered. Native plants come from remote places and often high water, snakes, alligators and other hazards interfere with prompt delivery, but when slow in filling an order, we put in an extra, besides the "surprise in every package". Always allow 15 days for shipping though we often ship in 3 days.

All prices indicate bare root unless otherwise stated. Orchids and Bromeliads do much better if taken on wood. This is the way they grow naturally.

No order for less than \$3.00 will be accepted because of increased postal rates. Old customers and repeat orders excepted. All orders postpaid East of the Miss. River unless otherwise stated. ADD 10% WEST OF THE MISSISSIPPI AND CANADA. Packing guaranteed. All native plants are blooming size and taken by permit. None are taken from the Everglades Park area. We do not ship C.O.D. It costs you more in fees, and some people never pick up the packages.

PLEASE LET US KNOW WHAT YOU THINK OF YOUR PLANTS IMMEDIATELY UPON RECEIPT, ESPECIALLY IF YOU HAVE A COMPLAINT. Please read this bulletin carefully - many people don't, and it causes needless correspondence.

The culture of these plants is simple and of necessity our instructions are simple and to the point. In shipping plants everywhere we cannot state anything but a general and accepted practice. Though orchids and Bromeliads are tough plants and take much punishment, they react differently in different places. You must find the proper location on your premises. IF YOU HAVE NEVER GROWN ORCHIDS LET US KNOW WHEN YOU ORDER.

The old theory that it is difficult to grow orchids is not true, and there is no reason why you should do without them. There are so many types that one may enjoy them the year round - indoors and outside - at very little cost. At first, you can try your hand on the inexpensive wild varieties which we can supply. Among our customers and beginners, amateurs, professionals, advanced collectors and the most exacting connoisseurs. For the latter, we advise getting on our "special" list as there are new varieties discovered and imported quite often.

ORCHIDS TERRESTRIAL

Terrestrial orchids grow in soil especially leaf mold and compost. The vanillas should be rooted or grown loosely potted. Use any or all of the following - best to mix two or three items, your choice - Spaghnum, dead leaves, leaf mold, compost, osmunda screenings, etc. To root cuttings, lay sideways on the medium and pull a little of it around each eye, when an eye starts to run pot in same material and provide trellis. They like lots of water. Other terrestrials should be grown in compost and started in shade and as the bloom spike appears, gradually move to sun or very strong light. Set bulbs shallow with part of bulb showing, 3 or 4 bulbs to the pot are best. After bloom, store the bulbs as is but keep slightly damp.

VANILIA PLANIFOLIA (fragrans). Vanilla extract comes from this orchid. Flowers 3 to 4 inches, greenish yellow, fragrant. Plant vine like, large thick leaves. \$1.25 per cutting of at least 2 eyes.

VANILIA PRAENTHA. A beautiful, heavy vine type orchid. Very rare. Don't send money - get on waiting list \$1.50

VANILIA GRANDIFLORA. Best of all - large whitish green flowers, cutting \$1.65.

BLETIA TUBEROSA. Lovely, palm leaf orchid with multiplying bulbs and loose panicles of many lavender blossoms on tall stems. After bloom, rest bulbs. Bulbs 35¢ each or 5 for \$1.25.

EULOPHIA ALTA (platypus altus). Though Bletia is beautiful, this one is best. Many reddish purple flowers in racemes on tall erect stems. Bulbs 40¢ each or 5 for \$1.50

" A SURPRISE IN EVERY PACKAGE"

ORCHIDS EPIPHYTIC

Epiphytic plants grow naturally on trees, logs and rocks with aerial or exposed roots. If bought growing on wood or tussock, they are much easier to handle. If bare root, pot in rotten wood, osmunda, or other loose material with charcoal and broken pottery in the bottom of the pot. Quick drainage is necessary and don't over water. Soak well then allow to dry out before watering again. Plants on wood need more water. Some of these plants like more light than others, but the light or sun in your locality is the determining factor. Very early or late sun is good, but filtered sun or passing sun and shade is best, as in a slat house.

These inexpensive native plants grow just like the fancy, large flowered types and so they are best for beginners. After learning, there is little gamble in buying the more expensive type. Many orchids do not look good when out of season or dormant, but that is the best time for shipping. Don't throw away a dead looking plant if the roots are alive.

CYRTOPODIUM PUNCTATUM (A curved foot that punctures). Bull's horn or cigar orchid. A mammoth of the orchid family, most robust and easy to grow orchid native of the United States. A real spray orchid with long spreading panicles of yellow, black and brown spotted blossoms, very showy even when not in bloom with large bulbs and palm like leaves. January to April.

Medium \$ 5.00

Large 10.00

Extra Large..... 25.00. Express collect - On wood add \$5.00

EPIDENDRUM TAMPENSE (Butterfly Orchid) - we can't say enough for this rugged "spunky", ready blooming plant. The best for beginners and it wins the admiration of all orchidists. Takes punishment, will stand cold and some freezing. Small fragrant, yellowish green flowers with white and purple lips. Many blossoms in loose sprays which are good as cut flowers or corsages. Do not remove dead bulb until plant is established.

5 to 8 strong bulbs \$1.50 On wood \$2.00

8 to 12 strong bulbs 2.00 On wood 2.50

Extra large plant 5.00 On wood 7.50

EPIDENDRUM COCHLEATUM, called "Black orchid (var, triandrum) - found only in South Florida. Lovely and easy to grow with attractive bulbs and foliage. May bloom any time with small blackish purple, shell like flowers in short sprays. Especially nice on tussock or wood. Hard to get. A real collector's item.

Small 4 to 6 bulbs 1.75 On wood 2.25

Medium 8 to 12 bulbs 2.50 On wood 3.00

Large 12 or more bulbs... . 4.00 On wood 4.50

EPIDENDRUM DIFFORME - Gentlemen's orchid fine for boutonniere. Very attractive, with rich green succulent leaves and many lovely greenish white flowers in clusters at the stem ends. May bloom anytime.

At least 3 nice stems 1.00 On wood 1.25

Medium 1.50 On wood 1.75

Large 2.00 On wood 2.25

EPIDENDRUM RIGIDUM - For beginners and collectors. Much like difforme with many stems and roots standing away from the wood. Not found in many places but very luxuriant where found. Small yellow flowers in clusters. Price - same as difforme.

EPIDENDRUM NOCTURNUM - One of our best, with long stems and many roots. Very attractive when in leaf and bloom. Largest flowers of any native. Sepals and petals yellow, lip white with yellow spot. Very odd shaped and fragrant at night. Likes some shade but strong light and humid atmosphere. As with E. Anceps is different from most orchids, they will often bloom more than once on the old green leafless stems with good tips, so do not remove until completely dead.

3 to 5 stems 1.75 On wood or bark. . \$2.25

5 to 8 stems 2.25 On wood or bark. . 2.75

Large 5.00 On wood or bark. . 5.50

EPIDENDRUM ANCEPS - Next to Cryptopodium our showiest orchid plant with many small yellow blossoms in heads. Much better on wood. Shade and humid condition necessary. Another good boutonniere orchid and often other interesting things growing with it on wood. Price - same as E. Nocturnum.

EPIDENDRUM BOOTHIANUM - Small, odd, hard to get. Graceful narrow leaves and compact bulbs. They look like a stack of green nickels that fell over. Mixed color of sepals and petals green and yellow. April, May, June. Get on waiting list.

4 to 6 bulbs \$2.00 8 to 10 bulbs . . . \$2.75

POLYSTACHYA LUTEOLA (minuta) - Small attractive rare plant, graceful leaves and many small flowers in terminal panicles, white turning yellow. March to November.

Small. \$1.50

Medium 2.00

Large. 2.50

POLYRRHIZA LINDENII (Ghost Orchid). A real oddity. No leaves or stems, only roots and large pure white blooms with long green tails. Every collector should have one. An excellent house plant if kept in humid condition. Spring, ~~summer~~ and fall. Do not buy bare roots if you are a beginner. Much in demand and hard to get.

Bare root.75 On wood \$2.75

PLEUROTHALLIS GELDIA - A beautiful plant with odd fragrant blossoms in winter, From the deepest swamps. Collector's item and attractive house plant. Each leaf a separate orchid but sent in clusters of 2 or more mature leaves. Much in demand and hard to get. \$3.50 per cluster. Don't send money - get on waiting list.

BROMELIADS

Among the most attractive of house plants, especially if taken on wood. May bloom at any time and easier to grow than orchids. If the old plant dies, leave as is for awhile. They sucker at the base. Very attractive plants for porch and outdoors in summer. For something different, go in for these plants along with orchids. All Bromeliads are easy to grow from suckers or seeds. The small plants on twigs are dandy for dish gardens and terrariums.

Bromeliads belong to the pineapple family and most are epiphytes, growing like and along with orchids. Our Tillandsias with lovely bloom are a branch of the Bromeliads. If bare root, pot in loose material such as dead leaves, rotten wood or excelsior. Water sparingly but keep in humid atmosphere with water always in leaf cups.

TILLANDSIA FASCICULATA - Most popular - large gray-green, stiff foliage with beautiful red flower bracts and blue flowers along the side.

Large	\$1.25	On wood	\$1.50
Specimen plants . .	2.50	On wood	2.50

TILLANDSIA UTRICULATA - Grow to be giants with long, soft, curly leaves and very long bloom spikes to 6 feet.

Small	\$1.50	Large	\$5.00
Medium (a large plant)	2.00		

TILLANDSIA TENUIFOLIA - Very attractive, easy to handle. Leaves grass-like. Good in baskets and dish gardens. Each .75 On wood \$1.00

TILLANDSIA CIRCINATA (Silver Queen) - Small attractive plants - excellent for dish gardens and other make-ups. On twigs or small branches.35

TILLANDSIA BALBASIANA - Prettiest of all with its long, graceful curly leaves and lovely blooms - each75 On wood or twig . . \$1.00

TILLANDSIA ALOIFOLIA - A corkscrew shape, striped curly leaves. A toss up between this and Balbasiana as to which is prettiest.

Each	\$1.00	On wood or twig . .	\$1.25
----------------	--------	---------------------	--------

TILLANDSIA RECURVATA - Resembles and is first cousin to T. Usenoides or Spanish moss which is neither moss nor Spanish but a blooming plant. Cluster of many blooming size plants on twigs for dish gardens, aquariums and what nots.

Medium cluster . . .	\$.75	Large	\$1.00
----------------------	-------	-----------------	--------

At times we get rare Tillandsia pruinosa, catopsis nutans, and guzmanias.

TILLANDSIA VALENZUELANA - Soft and sometimes pink foliage with branching bloom. Each \$1.00 On wood \$1.25

For dish gardens and make ups, we offer the following Tillandsias, baby size, at \$1.00 per dozen: T. fasciculata, Balbasiana, tenuifolia, circinata, and aloifolia. All the same kind or mixed. Our choice.

Special collection offer. Our choice. Five blooming size Tillandsias, all nice plants - Only \$4.00.

OSMUNDA - For potting orchids and Bromeliads. 2 lbs. will pot 6 orchid plants in 6" pots (average). Clean and light. 60¢ per lb. Postpaid east of the Miss. add 10¢ per pound west of the Mississippi. 100 lbs. or more 45¢ lb. R'wy. freight collect.

Ozark Gardens Magazine - good reading for plant lovers. Excellent, inexpensive and a lasting gift for relatives and friends. Read our articles every month about orchids, rare plants, and adventures in the big swamps - \$1.50 per year. Send money to Ozark Gardens, Eureka Springs, Arkansas.

Many people ask us to recommend a good Orchid book. Among all we have read and own, we consider as tops for beginners and old timers. "Orchids are Easy to Grow" by Logan and Casper. Beautifully illustrated - \$6.00.

PLEUROTHALLIS GELDII - A beautiful plant with odd fragrant blossoms in winter. From the deepest swamps. Collector's item and attractive house plant. Each leaf a separate orchid but sent in clusters of 2 or more mature leaves. Much in demand and hard to get. \$3.50 per cluster. Don't send money - get on waiting list.

BROMELIADS

Among the most attractive of house plants, especially if taken on wood. May bloom at any time and easier to grow than orchids. If the old plant dies, leave as is for awhile. They anchor at the base. Very attractive plants for porch and outdoors in summer. For something different, go in for these plants along with orchids. All Bromeliads are easy to grow from suckers or seeds. The small plants on twigs are handy for dish gardens and terrariums.

Bromeliads belong to the pineapple family and most are epiphytes, growing like and along with orchids. Our Tillandsias with lovely bloom are a branch of the Bromeliads. If bare root, put in loose material such as dead leaves, rotten wood or excelsior. Water sparingly but keep in humid atmosphere with water always in leaf cups.

On wood \$1.25

For dish gardens and make ups, we offer the following Tillandsias, baby size, at \$1.00 per dozen: T. fasciculata, Baiasiana, tenuicollis, circinata, and alopollia. All the same kind or mixed. Our choice.
Special collection offer. Our choice. Five blooming size Tillandsias, all nice plants - Only \$4.00.

OSMUNDA - For potting orchids and Bromeliads. 2 lbs. will pot 6 orchid plants in 6" pots (average). Clean and light. 60¢ per lb. Postpaid east of the Miss. and 10¢ per pound west of the Mississippi. 100 lbs. or more \$5¢ lb. R'wy. Freight collect.

Ozark Gardens Magazine - Good reading for plant lovers. Excellent, inexpensive and a lasting gift for relatives and friends. Read our articles every month about orchids, rare plants, and adventures in the big swamps - \$1.50 per year. Send money to Ozark Gardens, Eureka Springs, Arkansas.

Many people ask us to recommend a good Orchid book. Almost all we have read and own, we consider as tops for beginners and old timers. "Orchids are Easy to Grow" by Logan and Gager. Beautifully illustrated - \$6.00.

OTHER INTERESTING PLANTS AND THINGS.

One of the most beautiful and exotic sights to a plant lover is the entrance into a "cypress dome" or swamp of the deep Everglades. At first sparse, the growth gradually becomes more dense, then suddenly one steps into a low area, which in wet times would require deep wading. The limbs of the trees are covered with plant life, the abundance of each item depending upon the particular swamp. There will be orchids, in variety, some rare and hard to spot, air plants or bromeliads, moss ferns and lichens. If you have been very quiet you will see much bird and animal life. Yes, alligators. If noisy, all fade from sight and leave you alone in a beautiful but silent cathedral.

The most attractive item one can have in greenhouse or solarium is a limb from one of these trees cut with all its plant life thriving. You may have specimens 2 to 3 inches in diameter at \$3.50 per foot. One and two foot lengths only. Special instructions with order. This is one of our best sellers. Always at least one orchid on each limb.

POLYPODIUM INCANUM - The true resurrection fern - not the desert fern. Curls up when dry - wet and it comes to life. Ideal house plant especially with flower arrangements. Large tussocks often with other plants \$1.50.

Whole COCONUTS sprouted. Most unusual and attractive, easy to grow house palm. Can be grown in a bowl of water or large pot with any soil. Set only about one-third of the nut in the soil. Sprinkle a pinch of table salt on the soil around the nut. Wants lots of water. \$2.50.

FICUS AUREA - Golden fig, straggler fig, banyan tree. Makes very fine fast-growing house plants with shiny leaves. Small trees 2 to 3 feet cut back for shipping. \$1.50. This plant is fine for BON SAI, or the Japanese art of dwarfing trees in pots.

BANANA SPROUTS. One of the best and easiest house plants, and will grow to big plants outdoors in summer. Very fast in good soil with much water. Sprouts cut back for shipping - 12 to 18 in. \$1.50 ... 18 to 26 in. \$2.00.

Do you like palms? Don't miss this. ADONIDIA MERRILLII. Christmas or dwarf royal palm. Beauties. 8 to 12 in. seedling from beds 50¢ each 3 for \$1.25.

BRYOPHYLLUM PINNATUM - Also called "Leaf of life", "live forever" and "Chinese lantern". You can have fun with this easy to grow house plant. Pull off a leaf and lay it on the table. As the leaf withers, little plants form around edges. Two sizes, both nice plants - \$1.00 and \$1.50 each.

TRADESCANTIA ERECTA (Rhoeo discolor) Moses-in-the-bullrushes or Twelve Apostles. A real beauty. The erect leaves in rosettes are rich red beneath and rich green above. Striking, and easy to grow. Fine plants - \$1.00 and \$1.50 each.

Here is something unusual from the tropics. The upside down tree, Gumbo limbo, fine for dwarfing as indoor plants. Has small dense foliage and silky reddish bark. Any size limb or tree trunk will take root from either end. You will love it. Cuttings 6 in. long, $\frac{1}{2}$ to 1 in. diameter - 5 for \$1.00, 2 to 3 in. dia. 75¢ each. A little tree in weeks. Never before introduced.

JATROPHA MULTIFIDA (many fingers) is also called "coral plant" because of its many brilliant flowers in umbels, and physic nut because the fruit is highly laxative. Not poison, but do not taste the fruit. Makes very unusual and attractive house plants. To 12 inches or more \$1.50.

- ONCIDIUM ORNITHORHYNCHUS - It means the flowers are shaped like a birds beak. Many one inch rose-lilac flowers in sprays \$2.50 and \$3.50.
- ONCIDIUM CEBULLETA - Very attractive with terete or round leaves and one to 2 inch yellow and brown blossoms \$2.50 and \$3.50.
- ONCIDIUM OBLONGATUM - Fine plants and as usual the flowers are in sprays and spotted yellow and brown \$3.50 and \$5 00.
- BRASSIA CAUDATA - An attractive plant like E. Cochleatum. Flowers yellow and brown in racemes, several, one to two inch \$2.50 to \$3.50.
- SOBRALIA MACRANTHA - A delightful terrestrial. Tall plants with four to six inch crimson purple flowers. Spring and Summer bloom \$3.50 to \$5.00.
- SOBRALIA XANTHOLEUCA - Same as the above but flowers creamy yellow \$3.50 to \$5.00.
- COELIA BELLA. This is a stranger to us but the plants have long leaves and large bulbs from the base of which spring several 2 to 3 in. flowers white sepals purple rose tipped with yellow lip and throat. \$3.50 and \$5.00.
- EPIDENDRUM PENTOTIS. Like most of the other Epidendrums they are easy to grow and make fine plants. Many flowers on long spikes \$3.50 and \$5.00.
- EPIDENDRUM ARTROPURPUREUM. Is considered by most as the finest of Epidendrums. Many green and brown 3 in. flowers in sprays. \$3.50 and \$5.00
- EPIDENDRUM CARPANTIANUM - As with the other epidendrums it is tough. Many blooms any time. \$3.50.
- EPIDENDRUM BRASSAVOLAE - Many 3 to 4 inch yellow flowers in spring and summer. A dandy plant that looks like Cattleyas - \$3.50 and \$5.00.
- E. STAMFORDIANUM - Many yellow blossoms huddled together on a fairly long spike. You will like it. \$3.50.
- EPIDENDRUM CILIARE - Has several 3 to 4 inch white fragrant flowers. Easy to grow. \$3.50 and \$5.00.
- EPIDENDRUM AROMATICUM - Spring and Summer bloom in sprays, white fragrant and popular. \$3.50 and \$4.00.
- LAELIA ACUMINATA ROSEA - Lalias are among the easiest and finest orchids, closely related to Cattleyas. Flowers 4 to 5 to stems. Rose purple Spring \$3.00 and \$4.00.
- LAELIA SUPERBIENS - Large rose purple flowers, 4 to 5 to stems. Summer and Fall bloom. A must for those who like good orchids. \$5.00 and \$7.50.
- CYCNOCHIS CHLORCHILLON - This is one of the most unusual orchids. Large bulbs and long bloom spikes curved like a swan neck so it is called Swan Orchid. Flowers up to 10, 4 to 6 inches. Yellow and green. Spring and Fall easy to grow. \$5.00.
- CYCNOCHIS VERTRICOSUM - Another dandy with many large flowers. They are a puzzle to botanists because they produce bisexual or complete flowers. Male and female flowers and no one ever knows what color the flowers will be. Sometimes yellow, then black and other variations. Your guess. \$5.00 and \$7.50.
- BRASSAVOLAE NODOSA 2 to 3 inch white flowers. Plant attractive and easy to grow. Might bloom anytime. \$2.50.
- BRASSAVOLAE GLAUCA - As with B. Nodosa flowers are white, fragrant, but larger. One or two flowers on a stem. \$3.50.
- ODONTOGLOSSUM GRANDE - 4 to 7 yellow 5-7 inch yellow flowers. Blooms in Autumn. Will stand warmer weather than other "Odonts". \$5.00.
- ODONTOGLOSSUM CORDATUM - This is a beauty we have been wanting to get for some time. 3 to 5 inch yellow and brown flowers in Winter and Spring. Keep it cool. We can get other Odontoglossums if you like. \$3.50 to \$5.00.

TREASURES FROM TROPICAL SEAS

COLLECTING shells is one of the most facinating of hobbies. Those listed here are only a few of the more attractive types. None of the very heavy shells are listed because of postage which adds much to the cost.

THOSE listed are for What Nots, Dish Gardens, Arrangements, Collectors and General Interest.

IF YOU don't know much about shells, state how you are going to use them and let us select for you. Please do not send an order for less then \$3.00 postpaid East of Mississippi River, add 10% - West of Mississippi River.

ORCHID TURBO	Medium sized for this list and lovely	15¢
VOLUTES	White and brown spotted	15¢
GOLD MOUTH TURBO	Two and three inches-very pretty	15¢
GOLDEN NUGGET CONE	A beauty	15¢
LETTERED CONE	Especially nice	25¢
SOLDIERS CONE	You will like it	20¢
STRIPED CONE	Small and colorful	05¢
SMALL ASSORTED CONES	Several types	15¢
LEFT HANDED WELK	Thats right-very pretty-faily large	20¢
IRISH FAN	A real beauty-use with "hair-do's"	25¢
MUREX ENDIVER	A rugged beauty - don't miss it	20¢
BULLS EYE	That's what it looks like and you'll like it too.	20¢
MUREX BICOLOR	An especially lovely shell	35¢
KINGS CROWN	Another lovely Murex type	25¢
MULES EAR	Smaller than Abalone but looks like one	15¢
CUBAN TREE SNAIL	Small but highly colored makes cute ear bobys. Per Doz.	50¢
CANDY TREE SNAIL	Larger than Cuban, white and red striped. Per Doz.	50¢
GALITO HISPANOLA	Makes fine Spanish type ear bobs. You will look and feel like a Spanish Senorita.	15¢
STAR SHELLS	Also a beauty for ear bobs - Spanish	20¢
STRAWBERRY STROMBUS	Small but lovely	10¢
BABYLON SHELL	Fairly large with shaded brown and white coloring - Good collectors item	20¢
SNAKE HEAD COWERY	True to name and a dandy	25¢
CHINESE CLAMS	Especially nice, you can use them for bakine.	35¢
YELLOW SCORPION	Very strange and attractive. A must for collectors.	50¢
SEA BISQUETS.	One of the most unusual and interesting shells. The skeleton of a sea creature they all have the same perfectly marked pattern on the back. A cross of religious significance. Medium 25¢ Large	50¢
CAMEO SHELL	Heavy and really a small Queen Conch	1.00
QUEEN CONCHS	One of the prettiest of shells Are very heavy and beautiful	\$2.50 -5.00
MIXED SMALL BEACH SHELLS	Many types-good for making plaques and other trinkets. Per sack	1.00
SCALLOP of SPANISH COMB SHELLS	- Many with Barnacles	.25¢

ASSORTMENTS

TRY THESE FOR SAVING AND INTEREST

- Asst. #1-2 GALITO, 1 Doz. Cuban shells, 1 Orchid turbo, 1 Volute 1 King's Crown, 1 Mules ear, 1 Murex endiver, 1 Lettered Cone, 1 Bulls Eye, 1 Left Handed Welk, 1 Golden Nugget, 1 Murex bicolor, 1 Irish Fan, 1 Babylon Shell, 1 Snakes Head, 27 shells priced at \$3.50. This assortment only 3.00
- Asst. #2-Same as #1, but with the following added. 1 Doz. Candy shells, 2 Star Shells, 1 Strawberry Strombus, 1 Chinese Clam, 1 Asst. Cone, 1 Scallop, 1 Scorpion. Another 20 shells-Value \$5.75 - The Assortment. 5.00
- Asst. #3-Same as the above two assortments with the following added. 1 Cameo, 1 sack of beach shells mixed, 1 Soldiers Cone, 1 Gold Mouth Turbo, 3 striped Cones 15¢, 1 attractive shell not on the list. Total Value \$8.50 - Assortment 7.50

Please allow for minor substitutes. These shells are fine for Xmas birthday and other gifts. There are many others. To all those who buy and want more types we will send new lists from time to time.

DRIFTWOOD, Cont.

We offer the small pieces with character. They are easy to handle and work with especially in confined spaces.

50¢ BUTTONWOOD from the Florida Keys in pieces from 6 to 8 inches
8 to 12 inches \$1.00. Larger to 20 inches \$1.50.

55¢ CYPRESS from the big Swamps 6 to 8 inches 35¢, 8 to 12 inches
Larger to 20 inches \$1.25.

If you want larger pieces let us know and remember you can have lots of fun working with this wood regardless of how you use it.

TROPICAL SEEDS

For years we have sold such seeds and people are continually asking for lists.

The reason we have never before published such a list is because most tropical seeds are hard to preserve except under moderate refrigeration and that costs money.

For good results they should be planted shortly after collecting. Avacado and mangos are not apt to be good after 7 to 10 days and the same with many others.

Some hard shelled palms like the coconut, Latanias and a few others keep for a long time, but that isn't the general rule.

For that reason this list includes only those seeds which we can collect fresh most of the year. All do not fruit at the same time, tho there are always some trees and shrubs in bloom and fruit any time of year.

This is the way other customers have been buying and all have been satisfied. Send your order and money and we will fill all of the order possible. If some items are not available we send when we get them up to 3 months. After that we refund or substitute at your request.

State your preference as to seed types and unless you know exactly what you want, allow for substitutions. You are apt to get something more exciting than what you ordered.

Most all the trees and shrubs, except palms, are good for Bonsai and all make unique, exotic house plants.

Plant all seeds very shallow and if it is cold, set the seed flat on container over a small light until seeds are well sprouted. You never sprout seeds 100% and from 50% to 75% is good.

Remember no order for less than \$3.00 plus 10% for postage West of Mississippi River. In your order you can combine other items on our different lists to make up the \$3.00.

ORNAMENTAL TREES AND SHRUBS

Albizzia, lebbek, womans tongue

Lacy, pinnate foliage, easy to grow Spring and Summer 25¢ a packet

Bouhania, purpurea, orchid tree, mountain ebony

Flowers in lavender, white and yellow-Lovely small tree 25¢ a packet

Cassia fistula or golden shower

One of the most spectacular of flowering trees. The gum around the seeds is source of the old fashioned and gentle laxative

"Senna Leaf Tea". The pods alone are very odd

1/2 pod

50¢

Whole pod

\$1.00

Casuarine equisetifolia, Australian pine or beefwood. Looks like a pine but is a relative of the oaks.

Per packet - many seeds

25¢

P

Eugenia jambos-Rose apple

Lovely tree and the fruit smells and tastes like a rose

Seeds fairly large

Per Doz.

50¢

We have some seedlings on hand

35¢

Kegeliapinnata - the famous sausage tree, very odd and heavy

Many seeds, dig them out Pods only.

\$1.50 to \$2.00

Melaleuca leucodendron-cajeput or punk-tree
One of the strangest of trees. Loves water but grows fine on high land. Pods shipped in small brown sack. When the pack reaches you, the brown dust like seeds will be free of the pods. Hundreds of Seeds. Sprinkle some on the surface of a glass of water and watch the little trees grow. The fish in your aquarium love them. Plant on fine, rich, wet soil and keep soil wet from below by setting the pot in a coaster of water. Do not water from above until the seeds are little trees. Keep clipped Per packet 25¢

Parkingsonia aculeata-Jerusalem thorn
Long, druping, lacy foliage with reddish yellow flowers. Has proved hardy in Ark. by experiment. Per packet 25¢

Cocoa Plumosa, Queen palm	Packet	25¢
Princes Alexandria	Packet	25¢
Phoenix Canariensis, Date palm	Packet	25¢
Serenoe repens, palmetto	Packet	15¢

Others, but hard to sprout Paurotis Wrightii, Silver palm, Bottle Palm.

NOW We are offering something entirely new as far as we know. It is a plain mimeographed booklet about orchids, bromeliads and other strange plants. You will learn how such plants grow naturally in their native forests and how to grow them in the home.

THERE will be adventures with plants and animals from Venezuela to USA. Besides the serious stuff there will be pathos, wit & humor. IT matters not whether a book is bound in leather or the plainest paper. What you read and learn is what you want.

THE price post paid is \$1.00 and there will be later additions as the author B. A. Fletcher has more adventures.
